

Slide 1: Title Slide

FoodShare – Food Surplus & Donation Management System “Bridging Surplus Food with Community Need” FoodShare is a platform that connects food donors with communities in need to reduce waste and fight hunger. Presenter: Your Name / Team / Date / Organization.

Slide 2: Problem Statement

Millions of meals go to waste every year while many people struggle with hunger. Challenges: - High food waste from households, restaurants & stores - Lack of communication between donors & receivers - No logistics coordination system FoodShare bridges this gap and promotes food redistribution.

Slide 3: Mission & Goals

Mission: Reduce food waste and support vulnerable communities through community-powered food sharing. Goals: - Connect donors and receivers in real-time - Provide volunteer-based delivery support - Track food waste reduction & meals served

Slide 4: Solution Overview

FoodShare System Features: - Donor dashboard - Receiver dashboard - Volunteer delivery module
- Admin panel Flow: Donor posts → Receiver claims → Volunteer delivers.

Slide 5: User Roles

User Roles: - Donors: Post surplus food - Receivers: Claim food - Volunteers: Pickup & deliver - Admin: Verify users & monitor system

Slide 6: Tech Stack

Front-end: HTML, CSS, JavaScript Back-end: Node.js + Express Database: MongoDB / PostgreSQL Simple workflow: User → Web App → Backend → Database

Slide 7: Key Features

- Donation posting (name, quantity, expiry, address) - Real-time food listing & filters - Delivery status tracking - Impact dashboard - Responsive design

Slide 8: Wireframes Preview

Example Screens: - Donor submission form - Food availability list - Volunteer pickup task view

Slide 9: Workflow Process

1. Donor posts food 2. Receiver claims donation 3. Volunteer delivers food 4. Admin verifies & tracks

Slide 10: Implementation Plan

Phase 1: MVP launch Phase 2: Receiver & volunteer modules Phase 3: Mapping & dashboards
Phase 4: Deployment & pilot testing

Slide 11: Impact Metrics

- Donations made - Meals delivered - Waste reduced (kg) - Volunteers engaged

Slide 12: Challenges & Mitigation

Challenges & Solutions: - Food safety → expiry tracking & verified partners - Logistics → volunteer scheduling - Trust → user verification

Slide 13: Call to Action

We need: - Community partners - Volunteers - Donors - Test users Join us to reduce food waste and fight hunger!
